MAYFIELD
THE ORIGINAL DECKING COMPANY

Decking for Holiday & Park Homes

Supplying bespoke, innovative and quality decking solutions for nearly 40 years.

MADE IN BRITAIN

HARPA
Holiday and Residential Parks Association

Owned by one of Europe's largest plastics extruders, the Laumann Group, and operating through a national network of our own installers and approved contractors, Mayfield is the original decking company. We have been designing and building sun decks for nearly 40 years, bringing joy to thousands of homeowners up and down the country.

It's not just about designing and building high-quality custom decks of distinction and delivering a superior customer experience. For us, it's about creating an outdoor living space that you, your family and friends can enjoy for years to come whether it's watching the sunrise over a coffee or the sunset with a glass of wine. It's the memories that count, and we want you to love your deck from the moment it's built.

Call us now to find out what makes us different.

A little bit about us

Your Mayfield deck is the ultimate accessory for your home, adding a luxury finish to your outdoor escape.

Founded in 1989, we originally designed and built steps and small platforms for Holiday Homes along the South Coast of England, where our Head Office is still based today. It wasn't long before we offered to extend these basic platforms into larger decks, which quickly became popular with park owners and homeowners alike. Today, we are a national company installing thousands of decks every year on parks across the UK and Northern Ireland.

We believe ordering a deck should be easy and trouble-free. Our friendly team will manage the process from start to finish, helping you choose the right deck and options for your home, providing you with a no-obligation quote that is transparent with no hidden surprises. Good old-fashioned service that is reliable and trustworthy.

That is what we have built our reputation on for nearly 40 years, and it is what has made us one of the largest decking operations in the UK.

We operate through a network of Approved Contractors who share our values and cover the whole country, enabling us to provide a consistent level of service no matter where you are in the UK. Many of our Contractors have grown with us and become an extension of our Poole operation. They take pride and care in every deck they install in the same way we do, making them trusted and reliable partners.

Once we've built your deck, ownership couldn't be easier. Our products have been designed and tested for maximum endurance with minimum maintenance leaving you free to relax and enjoy your deck for many years. We use the highest quality materials, and our contemporary design is considered by many to be a classic. Read on to find out more.

40
Nearly 40 Years' Experience

British Standards

Ten-Year Warranty

Fast Quotations

Latest Technology

British Manufacturing

Quality Guaranteed

Let's start with quality. We only use the highest quality materials like grade C24 structural timber which has been treated to prevent premature rotting and will resist insect and fungal attack, prolonging its life, whilst still providing a cost-effective solution. For those wanting extra durability, our Aluminium subframes are the perfect solution, providing a lightweight, modern alternative to steel that can be 100% recycled at the end of its life. Stainless steel fixings and hardened steel construction screws ensure our decks are built to last and won't develop those annoying squeaks over time. For added strength, we reinforce our handrails and posts by fixing them through the deck frame.

This gives our decks a reassuringly solid feel and optimises their serviceable life which is why they come with a 10-year warranty.

Fully tested & certified to BS Standards

Our products are not just built to an industry standard. They are designed, tested and certified to British Standards giving you confidence when choosing your Mayfield deck.

- Slip Resistant - Mayfield boards and ramps are tested and certified to BS EN 16165
- Fire Tested - Mayfield boards and Skirting are tested and certified to BS EN 13501-1
- Load Tested - uPVC balustrades are tested and certified to BS 6180 whilst Decks and Subframes are load tested and certified to BS 6399
- Weather Resistant - uPVC products are tested and certified to BS EN 607

Clever by design

Mayfield Deck boards are individually installed onto timber or aluminium subframes using our unique decking clips. This prevents the boards rubbing together causing annoying squeaks and allows for easy drainage preventing the growth of algae between the boards. A slight convex profile on each board prevents puddling, helping with drainage and the stainless-steel fastening screws won't rust over time causing ugly stains which can be difficult to remove.

Mayfield Decks are low maintenance, so you won't have to spend time cleaning and painting them like timber decking. A simple brush and wash at the start and end of the season is all that is needed, leaving you free to relax and enjoy the sunshine.

Sustainability

Sustainability is not a choice - it is a responsibility. At Mayfield, we take our responsibility to steward the earth's natural resources as carefully as possible so you can enjoy your new deck knowing you are also helping contribute to a greener world. We are also passionate about wildlife conservation, the countryside and the environment.

Aluminium Subframes – a Sensible Alternative to Timber and steel

While we ensure our timber is sustainably sourced, we are committed to reducing timber use in Mayfield decks. Our Aluminium Deck Sub-Frames offer a longer lifespan without compromising on quality, providing a strong, reliable, and eco-friendly alternative.

Made from recycled aluminium, they resist moisture, insects and rot, making them perfect for all environments, even coastal. Lightweight yet strong, they meet all the relevant test standards and can even be recycled at the end of their life – just like our deck boards! You can upgrade to an Aluminium subframe which is fitted as standard on Residential Park Homes.

High Quality Timber Subframe

Timber remains one of the most versatile building products, combining strength with value for money. Our Timber is sourced from FSC-approved suppliers who we audit regularly. By selecting the highest (Grade C24) strength of timber, this enables us to reduce the volume of timber we use in constructing our Subframes which means fewer trees being harvested. We think this is important.

UPVC Boards - we've closed the loop

Mayfield boards start life at our modern production facility in Scunthorpe and are made from recycled uPVC. As one of the largest extruders of plastic in the UK, we're no strangers to managing materials conservatively to minimise our impact on the environment which is why we return our boards to Scunthorpe for recycling at the end of their life, turning them into new boards. No landfill, no waste. Simple as that.

British Standards BS6399

Our Aluminium Deck Sub-Frame passed the test!

Rust-Free

Make sure your Sundeck can withstand the British weather!

The Mayfield Difference

When choosing a Mayfield Sundeck, there are no limitations. We have a huge selection of styles, colours, finishes and accessories to choose from to complement all modern homes, and our friendly, experienced Sundeck sales and design team are on hand to assist you every step of the way. When your Sundeck has been designed and ordered, we will keep you and your park updated with installation dates.

If you have any questions, please call our team. Our nearly 40 years of experience means we can offer advice and ideas for your Sundeck and we will work closely with you to design and create the perfect outdoor living space that's right for you and your family's needs.

Mayfield Board

Mayfield uPVC boards are UV-resistant, blending quality and performance while offering a natural wood look, all at an affordable price.

Available in six contemporary colours, our boards complement the natural look of your home. The deeply embossed woodgrain effect has a matt finish that not only looks good, but also provides exceptional levels of grip, especially when wet, helping to keep you safe underfoot. For added strength, the hollow core is reinforced whilst a slight convex profile helps water to run off to prevent puddling.

Where the magic really happens is with our unique deck clips which hold the boards firmly in place. Not only are they virtually invisible, but the intelligent design helps to prevent annoying squeaking, especially in extremes of temperature and with stainless steel screws, you need never worry about ugly rust stains or fixings failing and compromising the safety of the structure.

—

If you ever wondered why Mayfield Decks don't squeak when you walk on them, take a look at this small clip.

WINDSOR LED

DESIGNED & DEVELOPED BY:
MAYFIELD

Transform your outdoor space with Mayfield's integrated deck lighting. Our elegant Windsor post lights create a warm, inviting glow – perfect for welcoming guests or returning home after dark.

Designed for year-round use, our lighting adds atmosphere during cooler spring and autumn evenings, helping you make the most of your deck, even after sunset. Thoughtfully engineered, the lights provide effective illumination while keeping light pollution to a minimum – so your neighbours stay happy and the night sky stays clear.

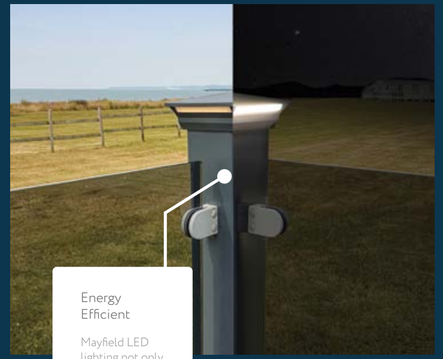

Outdoor lighting not only enhances the look of your decking but also extends its functionality, turning your space into a welcoming spot for summer evenings and cosy winter nights alike.

At Mayfield, we're also mindful of the environment. Our lighting systems are designed with low-level light pollution in mind, helping to protect nearby habitats while still offering stylish, practical solutions for your home.

—

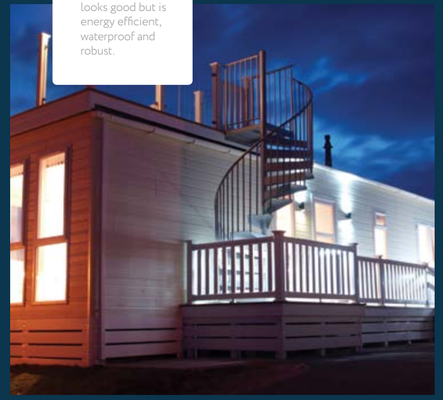

Please note:

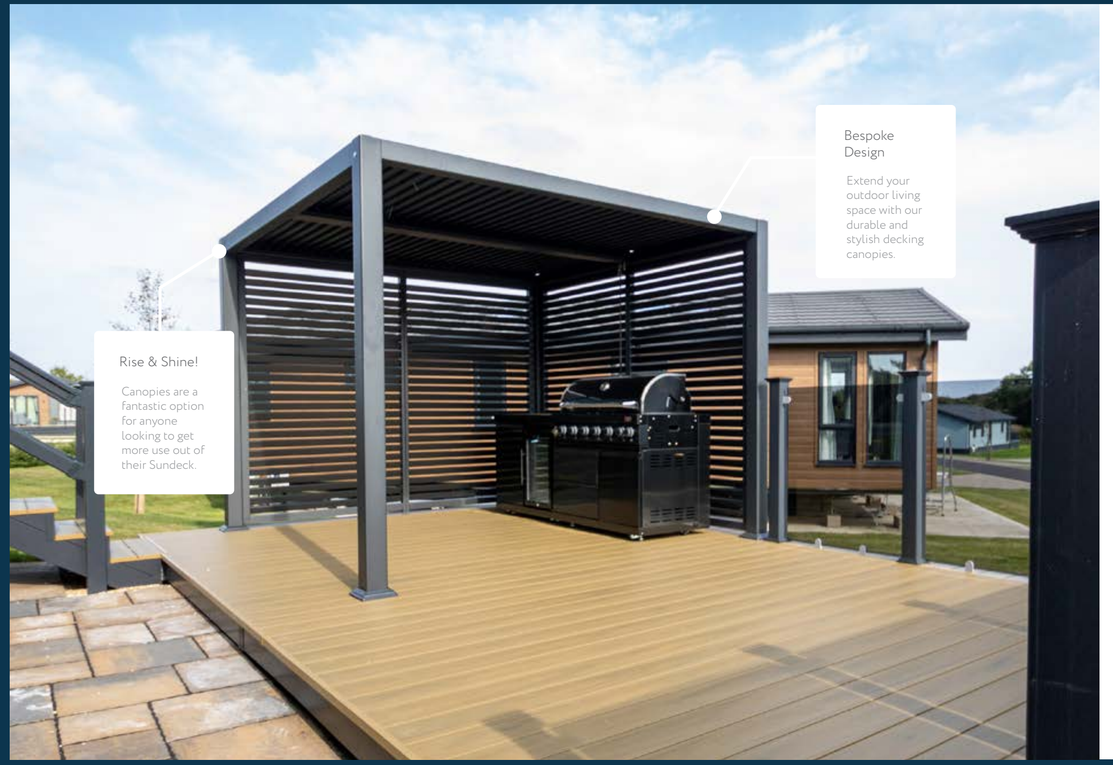

Mayfield decking installers are not qualified electricians and therefore do not connect the lights. This must be done by a park-approved electrician and could incur additional costs.

Energy Efficient

Mayfield LED lighting not only looks good but is energy efficient, waterproof and robust.

Bespoke Design

Extend your outdoor living space with our durable and stylish decking canopies.

Rise & Shine!

Canopies are a fantastic option for anyone looking to get more use out of their Sundeck.

Canopy Decks

A decking canopy from Mayfield provides a stylish and functional way to enhance your outdoor living space. Designed to offer shelter and protection from the elements, our canopies for decking are perfect for creating a comfortable outdoor area that can be enjoyed year-round. Made from high-quality materials, these canopies are durable, weather-resistant, and tailored to seamlessly integrate with your existing decking.

- **Extended Living Space**
  A decking canopy allows you to use your outdoor area in various weather conditions, making your deck a versatile extension of your home.

- **Protection from the Elements**
  Shield yourself from harmful UV rays, rain, and wind, ensuring your outdoor space is comfortable and usable throughout the year.

- **Enhanced Aesthetic and Property Value**
  A well-designed canopy on a deck not only adds a stylish focal point to your garden or patio but also increases the overall value of your property.

AS STANDARD

UPVC Balustrades Finishes

Manufactured in the UK by our own Group using recycled uPVC, our contemporary picket fencing is available in two styles and seven colours. Colonial pickets are wider and rectangular, while Victorian pickets are narrower and square, each offering a distinctive look. Posts, rails and pickets come in White, Cream and Light Grey, with the option to mix and match colours for contrast. For a small premium, four wood-effect foil finishes are also available: slate grey, oak, dark green and dark brown. All styles come with a 10-year warranty.

Our balustrades are fitted at 1100mm high and feature concealed fixings, heavy steel reinforcing, external radius brackets and Windsor collars for a seamless, modern finish without compromising strength. Unlike cheaper systems, our rails are secured into a reinforced core for added durability, which is why they have been tested and approved to BS 6180.

- ✓ Easy to clean and stain resistant
- ✓ Choice of colours
- ✓ No visible fixings
- ✓ External radius brackets
- ✓ British Standard BS6180

PREMIUM UPGRADE

Glass Balustrades

If your holiday or park home has a fabulous view, why not make the most of it by upgrading to a glass balustrade? There are two styles to choose from - ClearView and Infinity Balustrades.

Our frameless balustrades feature toughened 10mm safety glass which is securely fastened using stainless steel clamps and screws. Glass not only enhances the look of your deck but gives protection from draughts, enabling you to use your deck for longer into the season.

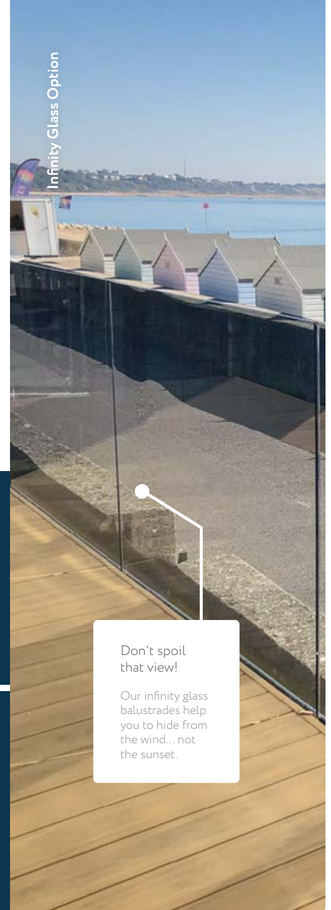

For a touch of luxury and protection from the wind, Infinity glass provides an uninterrupted view through its seamless glazed system.

ClearView Balustrades

- ✓ Stainless steel glass clamps
- ✓ Tints: Clear/Bronze/Smoke/Blue
- ✓ Sandblasted options including park logos/designs
- ✓ Bespoke sizes available

Infinity Balustrades

- ✓ Seamless design
- ✓ Superb wind protection
- ✓ Tints: Clear/Bronze/Smoke/Blue
- ✓ Privacy glass option available

Infinity Glass Option

Don't spoil that view!

Our infinity glass balustrades help you to hide from the wind... not the sunset.

ClearView Option

Make the most of your view!

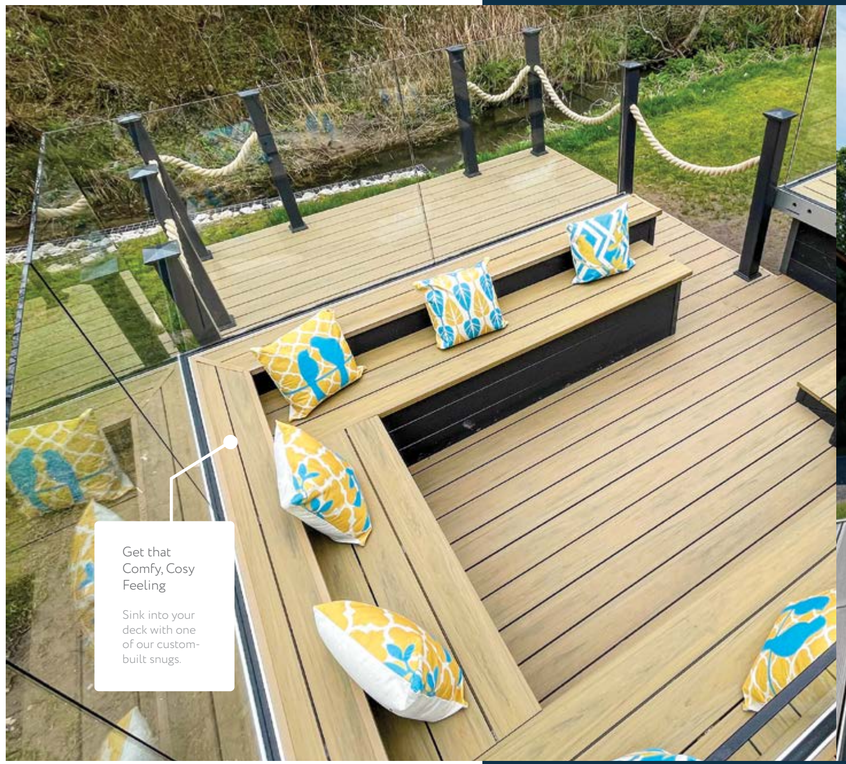

ClearView Balustrades - designed for people who like their scenery uninterrupted!

Snugs

Would you like a sundeck that makes people say WOW? At Mayfield, we're always innovating, and our latest creation—Sundeck Snugs—helps you enjoy your decking all year round. Built using the same durable deck boards, these sunken spaces create a cosy, sheltered retreat for any outdoor occasion.

Designed for comfort and style, Snugs offer tailor-made seating, ClearView balustrades for wind protection, and LED lighting to enhance the atmosphere. Whether you're looking for a relaxing hideaway or a stylish social space, our team is here to help bring your dream deck to life.

Call us today to get started!

Hot Tubs

We offer a wide selection of holiday home hot tubs for decking, accommodating between three and eight people. Each hot tub is crafted from premium-quality materials and comes equipped with an extensive range of high-end features as standard. Our hot tubs for decking are supplied with comprehensive warranties, and our installation and service teams operate nationwide, offering on-site training for your maintenance staff if required.

Designed with both style and functionality in mind, our hot tubs for decking feature a Sterling Silver finish, with a white acrylic base accented by luxurious silver and grey marbling highlights. They are built with a deluxe Roxul thermal retention system, which is up to four times more effective than traditional spray foam insulation. To enhance the customer experience, they include colour-changing LED lighting and fully adjustable hydrotherapy jets for the ultimate massage.

For ease of use, our hot tubs are fitted with Park Controls, allowing simple pump and light operation alongside a coded temperature control system. Maintenance is made effortless with an in-line dosing unit for chlorine or bromine erosion. Additionally, all models are Spa Heat ready, providing the option to upgrade to the Climacube heat system. For added convenience, they also feature a 2-inch pipe for quicker drainage.

Saunas

Mayfield's outdoor saunas bring comfort, calm and luxury to any outside space. Ideal for holiday homes, lodges, gardens and leisure settings, they create a relaxing feature that can be enjoyed all year round.

Designed to work beautifully alongside Mayfield decking, balustrades and lighting, each sauna helps create a complete outdoor wellness space with a premium, long-lasting finish.

- ✓ Creates a luxury wellness space
- ✓ Can be enjoyed all year round
- ✓ Enhanced Outdoor Living

Decking Kitchens & BBQs

Upgrade your home away from home and transform your outdoor living space with Mayfield's exceptional decking kitchens and BBQ setups.

Designed to provide both functionality and style, our deck kitchens and BBQs are perfect for entertaining friends and family, all while enjoying the beauty of your garden. Made with high-quality materials and crafted to withstand the elements, Mayfield's kitchens and BBQs for decking are a fantastic addition to any deck.

- ✓ Convenience and Entertainment
- ✓ Increased Property Value
- ✓ Enhanced Outdoor Living

Skirting Options

Enhance your sundeck with stylish and functional decking skirting. Made from uPVC, it is available in standard White, Cream, and four foil finishes, offering a virtually maintenance-free solution.

- ✓ Helps prevent heat loss
- ✓ Reduces draughts under home
- ✓ Virtually maintenance free
- ✓ Enhances visual appearance
- ✓ Reduces risk of water pipes freezing
- ✓ Prevents pests getting under home
- ✓ A range of different colours available
- ✓ Adds value and style

Ranch Skirting

Available in white and cream or in vinyl-wrapped Dark Green, Dark Brown, Golden Oak or Slate Grey, supplied with two access gates as standard (more are available on request). Fitted by our team of professional installers to ensure a perfect finish to any home.

Skirting Gate

A must with Ranch Style Skirting, these gates allow quick and easy maintenance access, fitted with our own top quality fixings to ensure no rust or corrosion. Two gates are fitted as standard with every skirting order, and more are available on request.

Gates & Accessories

Gates

Mayfield's welded custom-designed uPVC decking gates provide strength, durability, and security for your home. Our gates ensure a stylish finish and an exact colour match to your decking.

Stairs & Access Ramps

Our sundeck & free-standing steps are made to building regulation specifications. They are made from Tricoya, a superior, stable and durable material that offers incredible outdoor weathering characteristics. Our steps are robust, corrosion-free and modern in design.

Our slip-resistant access ramps allow easy access to your sundeck & home for those who need assistance. Our access ramps are built to a high standard and available with the added options of LED Windsor lighting and skirting to enhance the overall look.

Rail Supports & Handrail Brackets

Our balustrade bracketry and supports have been designed to perfectly match the profiles they are joining so that they complement the overall finish of your Sundeck. Attention has been paid to every detail, including the feel of the product, how it is mounted and keeping the fixings hidden from sight.

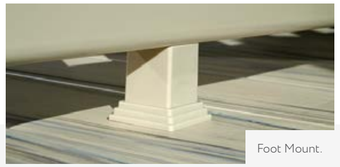

This may seem a small bit of detail, but we pride ourselves on being in complete control of our own designs which are unique features on a Mayfield Sundeck.

"Having the deck put down has been like building an extension to the house at a tiny fraction of the cost. We love the extra space! Also with two little ones, letting them come in and out without having to go up or down a step is completely worry-free. They love it, should have done it years ago!"

Tiphaine McConnell

Mayfield Garden Decking

Getting bespoke, quality garden decking can make the difference between a 'house' and a home. Decking takes your home to the next level, allowing you to connect more with nature and appreciate the great outdoors.

Why Should You Install Garden Decking?

- ✓ Enhance Outdoor Living
- ✓ Increased Property Value
- ✓ Low Maintenance
- ✓ Long-Lasting Beauty

Classic Sundeck Range

Our standard Sundeck range includes our most popular designs, which are more cost-effective than a custom-designed sundeck. Our SD Sundecks range from PS1 – SD18 in the sizes shown and are offered with uPVC balustrades only. Most are off-the-shelf designs offering a quicker installation turnaround.

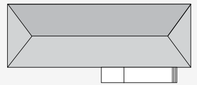

PS1 4' x 4'

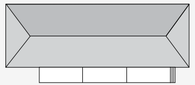

PS2 8' x 4'

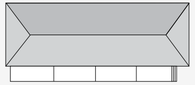

SD1 12' x 4'

SD2 24' x 4'

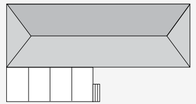

SD3 32' x 4'

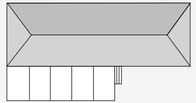

SD4 12' x 8'

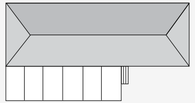

SD5 16' x 8'

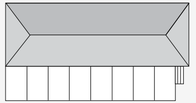

SD6 20' x 8'

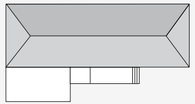

SD7 24' x 8'

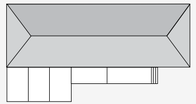

SD8 32' x 8'

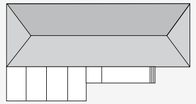

SD9 12' x 8' with 12' x 4' walkway

SD10 12' x 8' with 16' x 4' walkway

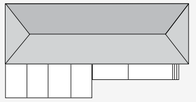

SD11 16' x 8' with 12' x 4' walkway

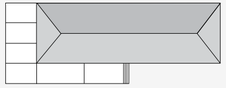

SD12 16' x 8' with 12' x 4' return

SD13 16' x 8' with 16' x 4' walkway

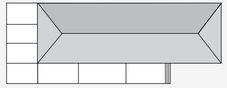

SD14 16' x 8' with 16' x 4' return

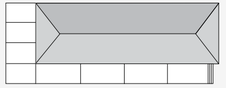

SD15 16' x 8' with 20' x 4' return

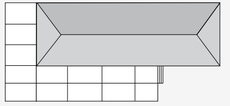

SD16 16' x 8' with 24' x 4' return

SD17 16' x 8' with 32' x 4' return

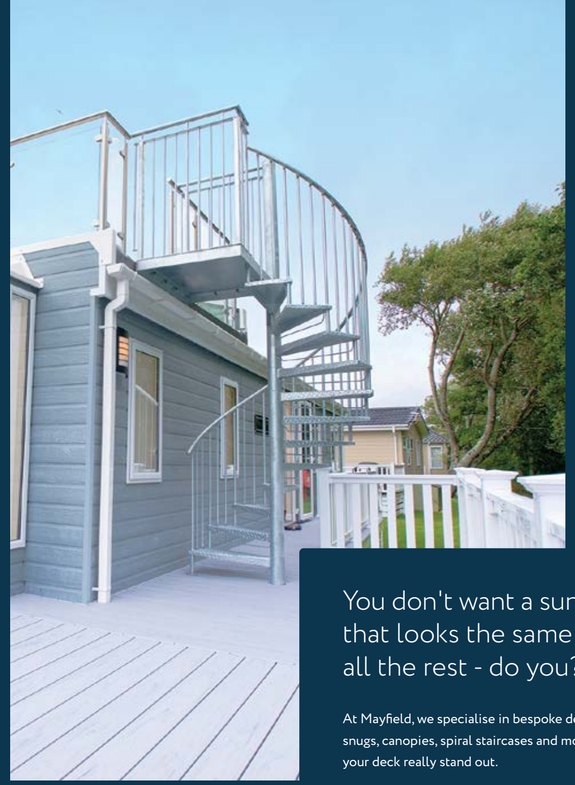

SD18 20' x 8' with 20' x 8' return

Bespoke Decking is our chance to throw the rule book out the window. With nearly 40 years of experience, no challenge is too great for us.

Sundeck on the roof?
No problem.

You don't want a sundeck that looks the same as all the rest - do you?

At Mayfield, we specialise in bespoke decking with snugs, canopies, spiral staircases and more to make your deck really stand out.

Something a bit different?
Let's see what we can do.

Can you put a hot tub up there?
Yes, yes we can.

Make your vision come to life?
We've got this.

What about this?
Alright, off we go.

Sparked your interest?

The beauty of a made-to-measure Sundeck is that it screams personality, looks fantastic and really complements your home. Nothing is holding you back when it comes to the design. Just speak to the Mayfield deck designers and bring your vision to life.

Themayfieldgroup.co.uk/decking-designer/

We've Got Approved Contractors Nationwide

The Mayfield Group has grown to become the leading supplier of uPVC decking in the UK. None of this would be possible without our trustworthy network of approved suppliers up and down the country. We are more than thrilled to introduce you to the entire Mayfield family and your next Sundeck installer.
